Preface

Accreditation Commission for Midwifery Education (ACME)

The mission of the Accreditation Commission for Midwifery Education (ACME) is to advance excellence in midwifery education. The U.S. Department of Education grants the following scope of recognition to ACME: "the accreditation and preaccreditation of basic certificate, basic graduate nurse-midwifery, direct entry midwifery, and pre-certification nurse-midwifery education midwifery programs, including those midwifery programs that offer distance education."

Midwifery programmatic pre/accreditation is a quality assurance process combining self-assessment and peer evaluation. Institutions offering midwifery education voluntarily participate in the midwifery programmatic accreditation process with ACME to assure that standards of midwifery education are maintained, competencies and skills are learned, and graduates are appropriately qualified. To be accredited, a midwifery program is expected to meet and maintain compliance with all of the criteria in this document. Every five years, the ACME Board of Commissioners (BOC) revises the criteria seeking input from a variety of stakeholders, including midwifery educators, clinicians, and others. The last review began in 2018 and the BOC finalized and published new criteria in May 2019. This document is the most current version of ACME's preaccreditation criteria.

ACME services are available to any education midwifery program that meets the eligibility requirements outlined in our Policies and Procedures Manual. For more information about the standards for midwifery programmatic accreditation agencies, visit the <u>U.S. Department of Education</u> website or address correspondence to Staff Assistant, Accreditation Office, USDE, 1990 K Street, NW, Washington, DC 20006, 202.219.7011 or 800.872.5327. ACME is administratively and financially autonomous from the American College of Nurse-Midwives. For more information visit <u>www.midwife.org/acme_or call</u> 240.485.1803.

Criteria for Midwifery Programmatic Preaccreditation of Midwifery Education Midwifery programs with Instructions for Elaboration and Documentation

Introduction

The Accreditation Commission for Midwifery Education (ACME) establishes the *Criteria for Programmatic Preaccreditation of Midwifery Education Programs with Instructions for Elaboration and Documentation*. These criteria are the basis for the midwifery programmatic preaccreditation process that is a joint activity involving both the midwifery education program and ACME.

The purposes of the criteria include to:

- A. Provide structure for implementing peer evaluation in the assessment of the quality of midwifery education programs preparing midwives and nurse-midwives
- B. Assure all aspects of midwifery education programs lead to appropriate student outcomes and prepare competent midwives
- C. Serve as a guide to faculty in developing their midwifery program and as a framework for self-evaluation

For Board of Review (BOR) action on each programmatic preaccreditation report (PAR), all programmatic preaccreditation criteria are considered and must be met. Actions that may be taken by the BOR are listed in the section titled "Board of Review" in the ACME Policies and Procedures Manual. For more information, the glossary, and other accreditation documents, visit <u>www.midwife.org/acme</u>

Currently, ACME accredits midwifery programs that culminate in a certificate, master's degree, doctoral degree or post-graduate certificate. ACME also accredits pre-certification midwifery programs. There may be multiple paths of entry into these midwifery programs. Such midwifery programs include, but are not limited to, the following examples:

- Associate degree or baccalaureate degree to master's degree program in nurse-midwifery or midwifery
- Postbaccalaureate certificate
- A midwifery education program that leads to a master's degree in midwifery, nursing, public health or an allied health field
- Postgraduate certificate
- A midwifery education program that leads to a doctoral degree

Instructions

The ACME Policies & Procedures Manual, Appendix F, Instructions for Preparations for Reports (SER/PAR), provides requirements and instructions for writing, formatting, and submitting the reports. The PAR/SER must be submitted no later than six weeks prior to the first day of the midwifery program's scheduled site visit.

- Clearly typed (including one-and-a-half spaced, 1-inch margins all around, no less than 12 font): Submit only a PDF copy of the report and any necessary supporting documents. Exhibits are not to be included, they will be reviewed at the site visit. Submission must be in a PDF format and emailed to acme@acnm.org.
- **Title page and midwifery program/s table:** See example in Appendix A.
- **Table of contents:** Includes all sections and all appendices with page numbers.
- Overview: See ACME Policies & Procedures Manual, Appendix F, A. Instructions for Preparation of PAR/SER. The overview will include a one to two-page narrative description that:
 - Explains when the institution was founded and the projected semester when the midwifery program will begin (PAR) or for a SER a brief history of the program.
 - □ Presents the institution's corporate or organizational structure (e.g., part of a state system, independent not-for-profit, or for-profit corporation).
 - Describes the primary modalities for delivery of midwifery curriculum (e.g., face-to-face, hybrid or all distance education).
 - Describes the basis for credit proposed (e.g., semester hours or quarter credit hours)
 - □ Lists the type/s of midwifery program/s offered or to be offered.

N.B. If there is/will be more than one clearly distinguishable midwifery program in the institution and if the way each meets a criterion is different, clearly explain both in the PAR/SER. Incorporate the responses into one PAR/SER, not separate PARs/SERs for each midwifery program. Examples: a school that has a master's midwifery program and a DNP midwifery program or a school that has a nurse-midwifery and midwifery program.

- □ Lists credential/s and degree level/s to be awarded.
- URLS: List of the URLs for the institution, the midwifery program, midwifery program catalogs, faculty and student handbooks available online, in addition, include the URL links within the text of the PAR/SER stating which criterion. All URLs must be active hyperlinks and lead to the exact location of the documented item.
- **Abbreviations Page:** Provide a list of any abbreviations and acronyms essential for reading the PAR/SER.
- Page numbers: Entire report is consecutively paginated, including all appendices. Maximum number of pages is 80, not including appendices. In addition, the Title Page, Overview, Abbreviations Page, and URL list are not included in the 80-page limit. PARs/SERs that exceed the 80-page limitation will be returned.
- Criterion responses: Each criterion is answered separately and typically in narrative form; responses do not address more than one criterion at a time.

- □ **Referencing sources:** The various sources of documentation referenced in the report include:
 - Name/title of the document or source
 - Date or version of the document or source
- **Exhibits:** Exhibits provide evidence to support the statements made in the PAR/SER. They may be presented in electronic or paper form.
 - Supply documentation that will satisfy the criterion. Please read these carefully and seek assistance from ACME for any questions.
 - Organize the documents for each exhibit in a folder (electronic or paper) labeled with the number of the criterion to which it pertains, e.g., Criterion I.G., Criterion II.H. Identify relevant sections of the documents, e.g., by highlighting or bookmarking.
 - Compile paper exhibits in one room for the site visit. With the exception of textbooks or other heavy items, paper exhibits should be stored in portable document boxes for easy transport to the site visitors' hotel in the evenings.

Criteria for Programmatic Preaccreditation of Midwifery Education Programs

with Instructions for Elaboration and Documentation

Criterion Ia Organization & Administration

Purpose: The purpose of Criterion I is to evaluate the organizational and administrative context of the midwifery program.

	Cite the specific source/location of documentation.	

M. Core faculty will participate in or will have input into councils and committees of the academic unit. Clinical faculty will participate or have input as appropriate.	M. Describe the academic unit's expectation for faculty participation in councils and committees. Provide an active link to the relevant portion of the faculty handbook. Include any pertinent definitions.	M. Include examples of how faculty will meet these expectations, such as possible activities/schedules/workload.
N. Core faculty will continue professional development and participate in scholarly activities.	 N. Describe the academic unit's expectation for continued professional development and scholarly activities. Provide an active link to the relevant portions of the faculty handbook. Include any pertinent definitions. Indicate how faculty workload will be managed to allow time for these activities. If relevant, include expectations and achievements for both tenured/tenure-track and non-tenure-track faculty. 	 N. Include examples of how faculty will meet these expectations, such as possible activities/ schedules/workload. Examples of professional development could include: completion of degrees, certificates, or courses academic promotion teaching or other awards grant proposals Examples of faculty scholarly activities could include: publications – articles or textbooks conference abstracts posters software blogs
O. Core faculty will maintain clinical expertise as required.	O. Describe the academic unit's expectation for maintenance of clinical expertise.	O. Provide evidence of how faculty will maintain clinical expertise as cited in the PAR narrative.
	Provide an active link to the relevant portion of the	
	faculty handbook. Include any pertinent definitions.	Examples of ways to document faculty clinical practice activities:
	Show how faculty will meet these expectations by	letter confirming clinical privileges
	describing their expected clinical practice activities,	from facility/practice

	including those of CNM/CM faculty. Indicate how faculty workload will be managed to allow time for these activities.	 peer evaluations from practice practice website listing faculty name
P. Core faculty will participate in professional service.	P. Describe the academic unit's expectation for professional service.	P. Provide specific evidence of faculty professional service cited in the PAR, if available, especially CNM/CM faculty.
	Provide an active link to the relevant portion of the faculty handbook. Include any pertinent definitions.	
	Show how faculty will meet these expectations by describing their expected professional service activities, including those of CNM/CM faculty.	
Q. Academic freedom is a faculty right clearly defined, made available in drafted or published policy, and will be applied consistently to all core faculty.	Q. Describe the academic freedom policy and its location. Provide an active link to this location.	 Q. Provide access to source document(s). Possible sources of documentation may include: faculty handbooks union contracts
R. The academic unit will publish and will employ defined criteria for periodic evaluation that will be applied consistently to all core faculty.	R. Describe the drafted or published criteria and state where they are located. Provide an active link to this location.	R. Provide access to source document(s).
S. The academic unit will publish and will employ processes for promotion, tenure, merit recognition and termination that will be applied consistently to all core faculty.	 S. Describe each of these processes, in draft or published, and state where they are located. Provide an active link to this location. 	S. Provide access to source document(s).
T. Core faculty will have channels within the institution for receipt and consideration of grievances related to	T. Describe the drafted or published grievance policies and state where they are located.	T. Provide access to source document(s).
their employment.	Provide an active link to this location.	
U. Clinical faculty will have qualifications that meet the academic institution's requirements for clinical faculty. They will	U. Describe the institution's requirements for prospective clinical faculty (see Glossary in the ACME Policies & Procedures Manual). Describe the process to	U. Provide a folder for each clinical faculty who will precept students.
		Each folder must contain:

be selected, oriented, mentored, and evaluated by core faculty.	be used for selection, orientation, mentoring, and evaluation of clinical faculty.	 a current CV or resume evidence of certification, as applicable
Fifty (50) percent or more of the clinical faculty will be CNMs/CMs. Other professionals who will serve as preceptors will be qualified to do so according to the ACME Guidelines for Interprofessional Clinical Supervision of Midwifery Students, Appendix E.	 Provide a Clinical Faculty Table II-2 in the appendix to the PAR that describes the clinical faculty who will provide the clinical teaching. A template and instructions for Table II-2 are in Appendix D: <i>Clinical Faculty Table</i> of this document. If there are core faculty who will also provide clinical instruction, include their information in Table II-1, the Core Faculty Table, and do not repeat it in Table II-2. 	For clinical faculty who are midwives, provide evidence of AMCB or NARM certification. This can be a copy of the certificate or of the individual's certification information from the relevant website. Include other certification if appropriate to the individual's teaching role, e.g., WHNP or FNP.
		For clinical faculty who are not midwives, provide evidence of specialty certification as applicable.
		Evidence of current licensure is acceptable as evidence of certification if AMCB or specialty certification is the only route to licensure in that legal jurisdiction.
		If the individual's licensure is used to document certification, place a copy of the license or website verification of licensure for each licensee in their folder.
		In addition, place one copy of the portion of the licensing law that requires AMCB or specialty certification for licensure in a location easily accessible to the site visitors.

Criteria for Programmatic Preaccreditation of Midwifery Education Programs

with Instructions for Elaboration and Documentation

Criterion III Students

Purpose: The purpose of Criterion III is to ensure that midwifery programs have well-designed, equitable, transparent, and consistently applied student-related policies.

Criterion III: Students	Instructions for Elaboration in the PAR	Instructions for Documentation in the Exhibits
A. The institution will have admission criteria and policies that meet federal guidelines for nondiscrimination (<u>www.eeoc.gov</u>).	A. State the admission criteria and policies including the midwifery program's or academic unit's nondiscrimination policy.	A. Provide the current or proposed document/s in which the criteria and policies appear.
B. The institution's admission criteria and policies will be aligned with the <u>ACNM</u> <u>Core Values</u> of inclusiveness, woman centered care and respect for physiologic processes, partnership, and advocacy.	B. State how the admission criteria and policies will be aligned with the ACNM Core Values of inclusiveness, women centered care and respect for physiologic processes, partnership and advocacy. This may be done with a table comparing admission policies to these values.	B. No exhibit required.
C. The institution's admission criteria and policies will be publicly available.	C. State where the criteria and policies will be available to the public.	C. Provide a draft copy for the web page/s where the criteria and policies will appear publicly. If admissions criteria and policies exist for other programs, provide URLs.
D. Student recruitment materials and processes will accurately represent the program practices and policies and demonstrate a commitment to diversity and inclusion.	D. Describe how student recruitment materials and processes will accurately represent midwifery program practices and policies. Include information for applicants about range, diversity, and acquisition of clinical sites.	D. Provide current or proposed samples of recruitment materials.
E. The institution will have student policies that will be publicly available and identified to students at or before orientation related to: student evaluation, progression, retention, dismissal and graduation; review of personal records and equitable tuition refund; evaluation of their education;	E. Describe how these policies will be identified to students at or before orientation. Identify where the policies will be publicly available. Describe how students will be notified of changes in these policies.	E. Provide drafts of the policies. Provide URLs to webpages for university/college catalogs and academic calendars.

access to university/college catalogs; and access to academic calendars.		
F. Student support services will be available and are designed to promote student success.	F. Identify services available to meet the needs of students to promote their retention in and progression through the midwifery program. Describe how this information will be distributed to students. Such services might include but are not limited to counseling, learning assistance or intervention strategies.	F. Provide a draft of the document describing these services. Provide URLs to the web page/s that describe these services.
G. Students will be informed of support services at or before orientation.	G. Identify how and when students will be informed of support services.	G. No exhibit required.
H. All students will have access to ongoing and equitable support services.	H. Describe how students will access support services regardless of instruction modality, their location, or clinical placement.	H. No exhibit required.
I. Students will be formally informed of course objectives/outcomes and methods of evaluation at the beginning of each course.	I. Describe the process by which students will be informed. Identify the location of objectives/outcomes and methods of evaluation in policy manuals, module materials, and/or course syllabi.	I. Provide the materials cited in electronic or printed form.
J. Students will be apprised of their progress on an ongoing basis.	J. Describe the process by which students will be apprised of their progress.	J. No exhibit required.
K. Students will be evaluated formatively and summatively.	K. Provide an overview of formative and summative evaluation processes that will be used in didactic and clinical portions of the midwifery program.	K. Provide drafts of formative and summative evaluation forms.
L. Students will be informed of remediation policies and processes.	L. Describe how students will be informed of these processes. Describe how they will be implemented for students who do not meet course or midwifery program requirements.	L. No exhibit required.
M. Students will have opportunities for involvement in development and implementation of midwifery program policies.	M. Describe the relevant opportunities, how students will be informed of them, and how they will be recruited and supported in their involvement.	M. Provide a draft of the document that describes to students their opportunities to be involved in the development and implementation of midwifery program policies.

N. Students will have opportunities to participate or have input into the representation on councils or committees of the institution or academic unit.	N. Describe the relevant opportunities and how students will be informed.	N. Provide a draft of the document that describes these opportunities to students.
O. The midwifery program will have clearly defined and transparent mechanisms for consideration of grievances, complaints or appeals.	O. Describe the mechanism for addressing grievances, complaints or appeals and how students will be apprised of these mechanisms. Identify the location where each of these mechanisms will be in electronic or printed documents.	O. Provide a draft of the document that describes these mechanisms to students. As applicable, provide examples of grievances, complaints, or appeals in the academic unit within the past three years.
P. Access to resources and opportunities will be available regardless of student location.	P. Describe how access to resources and opportunities will be available for all student locations e.g., on campus or at a distance. Describe how students will be informed of such access.	P. No exhibit required.
Q. The midwifery program will attend to students' well-being through the mitigation of fatigue related to clinical learning.	Q. Describe the mechanism and/or policy that ensures that students' clinical learning schedules will be safe and optimize students' well-being. Describe the mechanism by which clinical faculty will be educated to recognize the signs of learner fatigue and about the negative effects of provider fatigue on patient care and learning.	Q. Provide a draft of the document that describes these mechanisms and/or policies to students and clinical faculty.
R. The midwifery program will have processes to support student health and well-being.	R. Describe and provide URLs for any process/es the midwifery program will carry out or services the midwifery program will provide to promote student health and well-being. This could include but is not limited to referrals to student health services, training or procedures to build supportive communication, reduce implicit bias, support study groups, recognize and resist bullying, enhance resilience, and create mutual support groups.	R. Provide a draft of the document that describes the processes or services that support student health and well-being.

Criteria for Programmatic Preaccreditation of Midwifery Education Programs

with Instructions for Elaboration and Documentation

Criterion IV Curriculum

Purpose: The purpose of Criterion IV is to determine that the midwifery program implements a curriculum that is congruent with the midwifery program's mission and goals, is evidence-based, is consistent with the *ACNM Core Competencies for Basic Midwifery Practice* and has a process to assure midwifery students meet the stated midwifery program objectives/outcomes.

Criterion IV: Curriculum	Instructions for Elaboration in the SER	Instructions for Documentation in the Exhibits
A. The curriculum will be based on a statement of midwifery program philosophy, purpose/mission and objectives/ outcomes.	A. Provide a statement of midwifery program philosophy, purpose/mission, and objectives/outcomes. Identify the key concepts of the midwifery program philosophy.	A. No exhibit required.
 B. The midwifery program philosophy will be consistent with: the philosophy of the ACNM the philosophy or purpose/ mission of the institution within which the midwifery program resides or with which it is affiliated, and the philosophy of the academic unit wherein the midwifery program resides. 	 B. Provide a succinct description explaining the consistency among the philosophies or purpose/mission. This may be done in the form of a table. In the appendices to the PAR, provide the philosophy or purpose/mission of each entity in full. 	B. No exhibit required.
C. The midwifery program's purpose/ mission and objectives/outcomes will be consistent with the midwifery program philosophy.	C. Explain the consistency among the midwifery program's purpose/mission, objectives/outcomes, and philosophy. This may be done in the form of a table.	C. No exhibit required.
D. The curriculum will be designed to achieve the stated objectives/outcomes of the midwifery program.	D. Briefly describe how the curriculum will help students achieve the midwifery program's objectives/outcomes. In the PAR appendices, provide a table that shows where midwifery program objectives/outcomes will be met in specific courses.	D. No exhibit required.

	See Appendix F: <i>Midwifery Program Objectives or Outcomes</i> in this document for a sample table.	
E. Curriculum development will be a continuing process.	E. Describe the plan for continuing curriculum development.	E. Provide meeting minutes or other documents that demonstrate the initial development of the curriculum and plans for ongoing curricular development.
F. The midwifery program will establish criteria and a process for awarding transfer credit for didactic coursework.	F. Identify the criteria with rationale and explain the process.	F. Provide a draft of the criteria that will be given to applicants.
G. The midwifery program will establish criteria and a process for awarding transfer credit for clinical coursework and clinical experience.	G. Identify the criteria with rationale and explain the process.	G. Provide examples of course challenge mechanisms, transcript assessments, or other procedures that will be used to assess whether a student has met the criteria.
H. The midwifery program will establish criteria and a process for granting exemption from didactic coursework.	H. Identify the criteria with rationale and explain the process.	H. Provide a draft of the criteria and the proposed process.
I. The midwifery program will establish criteria and a process for granting exemption from clinical coursework and clinical experience.	I. Identify the criteria with rationale and explain the process.	I. Provide a draft of the criteria and the proposed process.
J. The curriculum will be consistent with the <u>ACNM Core Competencies for Basic</u> <u>Midwifery Practice</u> .	J. Describe the process planned for ensuring that the ACNM Core Competencies for Basic Midwifery Practice will be taught. Describe the process planned to correct any deficiencies. In the PAR appendix, provide a table that shows the location of the ACNM <u>Core Competencies for Basic</u> <u>Midwifery Practice</u> in the curriculum. Give one to three examples for each hallmark and competency. See Appendix G: Courses with Core Competencies Content Table, in this document for a sample table.	J. The table should also appear in the exhibits with the referenced curriculum. Each "Hallmark of Midwifery" should be addressed with examples (objectives/outcomes, seminars, classes, learning activities) that demonstrate how each will be integrated throughout the curriculum.

K. The curriculum will include courses in	K. Provide the course names and formal descriptions for these courses or identify where content will be taught in	For each competency listed under "Components of Midwifery Care," give examples of its location in the curriculum with course number, specific outcome/s or objective/s, and page number or other device for locating where each competency can be found. Provide evidence of a process to ensure appropriate inclusion of core competency content. K. Provide access to the syllabi for these courses. Include course content

competence in clinical practice.	help students who are having difficulty reaching	
	academic or clinical competence.	

R. The midwifery program will provide students with the necessary clinical experiences to achieve the objectives/outcomes of the program.	 R. Explain the breadth and depth of clinical experiences that will be used by the midwifery program to achieve program objectives or outcomes. Clinical experiences must be primarily direct patient contacts. These experiences may be supplemented by such strategies as simulation, role play, standardized patients and emerging technologies. 	R. No exhibit required.
	If the midwifery program determines that the clinical facilities will be inadequate to provide the necessary experiences, describe plans to address this problem.	
S. The midwifery program will maintain final responsibility for assessing and approving clinical sites.	S. Describe the process for identification, selection and approval of clinical sites.	S. No exhibit required.
T. The midwifery program will implement policies and procedures for academic integrity and verification of student identity for academic work, including authorship of work and work done through electronic technologies.	T. Identify the policies and procedures and describe how they will be implemented to verify student identity for work, including that conducted by electronic technologies.	T. Provide draft/s of policy/ies that describe the process.
U. Regular communication will occur among and between faculty and students during implementation of the curriculum.	U. Describe how regular communication will occur in both academic and clinical settings.	U. No exhibit required.
V. The curriculum will conform to state or nationally recognized guidelines for the educational levels offered by the midwifery program: certificate, master's, or doctoral degree.	 V. Identify the guidelines to be used, such as those established by state law or a professional organization and provide the URL/s to website pages if available. Explain how the curriculum will conform to guidelines for the midwifery program's educational level/s. This may be done in the form of a table. 	V. No exhibit required.
	If the midwifery program culminates in a professional or practice-focused doctoral degree for midwives,	

describe how the program will conform to the	
competencies identified in the ACNM document <u>The</u>	
Practice Doctorate in Midwifery .	

Criteria for Programmatic Preaccreditation of Midwifery Education Programs

with Instructions for Elaboration and Documentation

Criterion V: Resources

Purpose: The purpose of Criterion V is to ensure that the institution demonstrates that midwifery education programs have adequate resources to promote student and faculty success in meeting the midwifery program objectives.

Criterion V: Resources	Instructions for Elaboration in the PAR	Instructions for Documentation in the Exhibits
A. The midwifery program will have an adequate number of qualified core faculty to meet the program objectives/outcomes.	 A. Describe how the midwifery program will determine the adequacy of the number of qualified faculty. Describe plans to provide an adequate number of faculty if the program determines that the number of faculty is inadequate. 	A. No exhibit required.
B. The midwifery program will have adequate number of staff for administrative, technical, and student support to meet program objectives/outcomes.	 B. Describe how the midwifery program will determine adequacy for administrative, technical, and student support. Describe plans to provide adequate number of staff if the program determines that the number of staff is inadequate. 	B. Provide a list of proposed staff by titles and indicate their responsibilities: administrative, technical, student support, etc.
C. The midwifery program's physical facilities on campus and at clinical sites will be adequate to meet student needs and program objectives/outcomes.	C. Describe how the midwifery program will determine adequacy of physical facilities on campus and at clinical sites to meet student needs. These may include office space, classrooms, conference rooms, library, lactation room, gender-neutral facilities, internet access, rest space, and laboratories. Describe plans to address deficiencies to the extent possible if the program determines that the physical facilities are deficient.	C. Provide the site visitors with a tour of proposed physical facilities.
D. The midwifery program's learning resources will be accessible and adequate to meet student needs and program objectives/outcomes.	D. Describe how the midwifery program will determine the adequacy of resources, e.g., laboratory, clinical simulation, instructional technology, and library resources.	D. Provide the site visitors with a tour of learning resources, either physically or virtually.

	Explain how all students and faculty, including those at a distance, and individuals with disabilities and special learning needs can access learning resources. When any learning resources are determined to be	
	deficient, describe plans to address the deficiencies.	
E. The midwifery program will have resources for students, faculty, and staff to support diversity and inclusion. This includes resources to address implicit bias and disparities related to race, gender, age, sexual orientation, disability, nationality and religion.	E. Describe how the midwifery program will provide dedicated resources for support and training for students, faculty, and staff. Describe how the midwifery program will disseminate this information to students, faculty and staff. Examples of these dedicated resources: a specific department program or person (e.g., Office of Diversity & Inclusion/Diversity Officer), trainings, workshops, lectures, or online educational platforms.	E. No exhibit required.
	Describe plans to address the deficiencies if the program	
	determines that the resources are deficient.	
F. The midwifery program will secure clinical sites for students. These sites will provide access to clinical experiences to ensure that each student has the opportunity to attain competence in the midwifery practice areas of primary care, gynecologic, antepartum, intrapartum, postpartum, and newborn care.	 F. Describe how clinical sites will be secured and how student clinical experiences will be monitored. Explain how competence will be assured if student experience numbers fall below those listed in this criterion. Some clinical encounters may count in more than one 	F. No exhibit required.
	category. While an absolute number of clinical experiences is not required for midwifery program accreditation, these recommendations guide midwifery programs in selecting clinical sites and ensuring adequate experience	

for competence across the full scope of midwifery
practice.
<u>Clinical Experiences:</u>
Primary care 40
Includes common acute and stable chronic health
conditions.
Gynecologic care 80
Includes preconception, contraception, adolescent,
perimenopausal, and postmenopausal.
Antepartum care 100
Includes new and return prenatal care across gestational
ages.
Intrapartum care 60*
Includes labor assessment, labor management, and
births.
*Includes access to or opportunity to attend at least 35
births.
Postpartum care 50
Includes postpartum visits (0-7 days), up to 8 weeks
postpartum, and breastfeeding support.
Newborn Care 30
Includes newborn assessment and anticipatory
guidance.

ACME ACCREDITATION COMMISSION for MIDWIFERY EDUCATION

Criteria for Programmatic Preaccreditation of Midwifery Education Programs

with Instructions for Elaboration and Documentation

Criterion VI: Assessment & Outcomes

© ACME Programmatic Preaccreditation August 2019 (Revised December 2019)

Purpose: The purpose of Criterion VI is to ensure each midwifery program has a comprehensive assessment plan and publicly-available outcomes data to show midwifery program quality, including evaluation of clinical education and teaching faculty.

Criterion VI: Assessment and Outcomes	Instructions for Elaboration in the PAR	Instructions for Documentation in the Exhibits		
A. The midwifery program will have a comprehensive plan for ongoing assessment of the program philosophy, mission/purpose, and objectives/outcomes to achieve continuous quality improvement.	 A. Explain the process for developing and implementing the plan, including who will be responsible and the time frame for the review. Identify the actions that will be taken if the assessment shows that any midwifery program objectives/outcomes are not being met. 	A. No exhibit required.		
B. The midwifery program assessment process will include evaluations of the program by students and recent graduates.	 B. State the midwifery program's goals for midwifery students' and graduates' evaluations of the midwifery program. Describe action planned to address students' or graduates' evaluations that fall short of the midwifery program's goals. 	B. Provide a draft of the instrument/s that will be used for students' and graduates' evaluations of the midwifery program.		
C. The midwifery program assessment process will include evaluations for enrollment, graduation, and attrition goals.	 C. Describe enrollment, graduation, and attrition goals. Explain how the midwifery program will categorize the students, e.g., part-time, full-time, leave of absence, etc., and how the midwifery program will calculate the percentage of students in each category. Explain actions that will be taken or planned if goals are not met. 	Provide the URL to the webpage where enrollment and graduation and attrition data will be publicized.		
D. The midwifery program will set its own AMCB certification rate goal in accordance with the program's mission. Failing to meet the goal requires the	D. Describe the rationale that will be used to establish the midwifery program's AMCB certification goal.	Provide the URL to the webpage where certification data will be publicized.		

development of an improvement plan to		
bring the certification rate to the goal.		
E. The midwifery program will have a plan	E. Describe the process the midwifery program will use	E. No exhibit required.
for reviews and updates of its philosophy,	to assess its philosophy, purpose or mission, and	
purpose/mission, and	objectives or outcomes using current ACNM documents.	
objectives/ outcomes that include		
current ACNM philosophy and standards.	Identify the ACNM documents that will be considered in this process.	
F. The midwifery program's reviews and	F. Describe the process the midwifery program will use	F. Provide the national or state
updates of its philosophy,	to determine currency and applicability of national and	requirements and standards that are
purpose/mission, and	state standards and educational requirements in these	applicable to the midwifery program.
objectives/outcomes will include national	reviews and updates.	
(and state as applicable) standards and		
educational requirements.		
G. The midwifery program's reviews and	G. Describe the process the midwifery program will use	G. No exhibit required.
updates of its philosophy,	to identify and address significant changes in its	
purpose/mission, and	institution in these reviews and updates.	
objectives/outcomes will include		
significant changes within the program's		
institution that are relevant to the		
program.		
H. The midwifery program's assessment	H. Describe the process the midwifery program will use	H. No exhibit required.
process will include evaluation of the	to evaluate the effectiveness of clinical sites to meet	
effectiveness of clinical sites to meet	student learning needs and monitor and promote their	
student learning needs and monitor and	achievement of clinical competence.	
promote their achievement of clinical		
competence.		
I. The midwifery program's assessment	I. Describe the process the midwifery program will use	I. Provide a table listing the name of each
process will ensure the presence of	to ensure that students are assigned to clinical sites with	clinical site already identified and the
current contracts for each clinical site.	current contracts.	status of its contracts.
		Provide access at the site visit to all
		contracts already completed.

J. The midwifery program's assessment process will include a plan for annual evaluation of core faculty competence as applicable and as defined by the program.	J. Describe the process for annual evaluation of core faculty. Identify possible actions the program will take if a core faculty member fails to meet evaluative standards.	J. No exhibit required.
K. The midwifery program's assessment process will include a plan for annual evaluation of clinical faculty competence as applicable and as defined by the program.	K. Define clinical faculty competence. Describe the process the midwifery program will use for annual evaluation of clinical faculty. Identify possible actions the midwifery program will take if a clinical faculty member fails to meet evaluative standards.	K. No exhibit required.
L. The midwifery program's assessment process will include a plan to assess the non-discriminatory, equitable, and respectful interaction of core faculty and clinical faculty with students, colleagues, and patients.	 L. Define non-discriminatory, equitable, and respectful interaction using current ACNM documents, such as the ACNM Code of Ethics. Describe the process the midwifery program will use for annual evaluation of core and clinical faculty interaction with students, colleagues, and patients. 	L. No exhibit required.
	Identify possible actions the program will take if a core or clinical faculty member fails to meet evaluative standards.

Appendix B: ACME Policy on International Accreditation for Degree-Granting Higher Education Institutions Based Abroad

The Accreditation Commission for Midwifery Education (ACME) has set a criterion that requires all midwifery programs to reside within or be affiliated with an accredited degree-granting institution. While that may be clear for institutions based in the United States (US), this policy addresses compliance with that criterion for midwifery programs at higher education degree-granting institutions that are based outside of the US and that do not participate in accreditation via an agency recognized by the U.S. Department of Education. The decision on whether the midwifery program meets this criterion will be determined by the ACME Board of Review via the midwifery program accreditation process.

ACME understands the accreditation process to include the implementation of periodic assessment for quality assurance (QA). Institutional participation in the quality assurance process should maintain minimum standards of quality for the higher education degree-granting institution and for its academic midwifery programs by periodic assessments. Therefore, for ACME to accept a degree-granting institution based outside the U.S. as accredited, the higher education institution must:

1) Participate in an accreditation or quality assurance process that complies with the institution's national regulations for accreditation or quality assurance. a) Comply with the institution's national regulations for institutional accreditation or quality assurance. b) Conduct periodic assessment for accreditation or quality assurance purposes in conformity with the broader regional quality assurance processes or with the non-governmental agencies within the region. 2) The national regulations should be consistent with internationally recognized criteria for implementing QA, i.e., UNESCO *Guidelines for Quality Provision in Cross-Border Education*, the International Network for Quality Assurance Agencies in Higher Education (INQAAHE) document *Principles of Good Practice*, the criteria established by the European Association for Quality Assurance for Higher Education (ENQA) or other similarly regarded international document. 3) Undergo external assessment of quality on a periodic basis to maintain quality. Documentation of the quality assurance review and the relevant agency's formal determination must be submitted to ACME. Documentation should be current for the time at which application is made to ACME for accreditation. Explanation of the time frame for periodic review and the specific length of time of validity for the current assessment determination should be provided to ACME. 4) The international institution while accredited by ACME. 5) If the institution that houses the midwifery education is dedicated to a special academic midwifery program, such as nursing, the midwifery program must also meet relevant professional field, licensing and regulatory requirements. 6) ACME has the right of final determination whether the quality assurance process practiced by the institution based abroad meets ACME criteria.

Appendix C: Core Faculty Table (Template for Criterion II C. - II.E.)

The core faculty table should contain the following:

- 1. Name of faculty member. Please ensure that names in the table are consistent with individuals' credentialing documents.
- 2. Specialty certification with certification number, or specific expertise if the individual is not specialty certified
- 3. License number if applicable
- 4. Highest degree earned
- 5. Category/rank of faculty appointment
- 6. Type of preparation for teaching (see Criterion II.C.3. for examples of how this may be documented. Include only a brief description here, e.g. "Faculty mentoring", "Graduate course"
- 7. Teaching role in courses with Core Competency content, with course name and number, including any clinical teaching.

Core faculty table template: Table II-1. List core faculty in alphabetical order by last name. Please list the CNM/CM core faculty first.

First name	Type of specialty certification or specific expertise	Certificate # License #	Highest degree earned	Faculty rank	Preparation for teaching	Course(s) to be taught
------------	--	----------------------------	--------------------------	--------------	--------------------------	---------------------------

Appendix D: Clinical Faculty Table (Template for Criterion II.U.)

The clinical faculty table should contain the following:

1. Name and credential (e.g. CNM, CM, CPM, NP, PA, MD, DO). Please ensure that the names as listed in the table and on the individual faculty's folder correspond to the names on the faculty's credential documents.

- 2. Certification number
- 3. License number if applicable
- 4. Highest earned degree
- 5. Clinical/practice site. Please ensure names of clinical sites in this table are consistent with the names on the contracts for those sites.
- 6. Clinical area(s) (e.g., AP, IP, primary care)
- 7. Preparation for teaching

Clinical faculty table template: Table II-2. List clinical faculty in alphabetical order by last name.

Last name, First	Credential (CM, CNM,	Highest degree	Clinical site	Clinical areas in	Preparation for
name	MD, NP etc.)	earned		which students will	teaching
	Certificate # License #			be precepted at this	
				site	

Appendix E: ACME Guidelines for Interprofessional Clinical Supervision of Midwifery Students

ACME values and recognizes the need to encourage interprofessional practice and collaboration. In response to questions from Midwifery program Directors and to ensure the quality of nurse-midwifery/midwifery students' education, the Accreditation Commission for Midwifery Education (ACME) has created guidelines to clarify the requirements for a variety of clinicians who may serve on a midwifery program's clinical faculty as preceptors for students preparing to become Certified Nurse-Midwives (CNM)/Certified Midwives (CM). These individuals include, but are not limited to, Nurse Practitioners (NP), Certified Professional Midwives (CPM), Medical Doctors or Doctor of Osteopathic Medicine (MD or DO), and Physician Assistants (PA).

The qualifications for preceptors to teach and supervise CNM/CM students in clinical experiences are detailed below. Note that students enrolled in ACME accredited midwifery programs must be supervised 50% or more of the time by a CNM/CM prepared clinician.

In order to serve as a preceptor for a CNM/CM student in an ACME accredited education midwifery program, a preceptor must meet all of the following criteria:

- Attended and graduated from a midwifery program/institution that is accredited by an accrediting agency that is recognized by the U.S. Department of Education (USDE);
- Passed a national certification exam offered to that profession; e.g. certification examinations offered by the American Nurses Credentialing Center, Accreditation Board for Specialty Nursing Certification, North American Registry of Midwives, or The American Board of Obstetrics and Gynecology;
- Possess current professional certification;
- Possess a current license in the state where practicing;
- Possess education credentials appropriate to the level at which they teach and meet the academic institution's requirements for clinical faculty; and
- Have preparation for teaching and have competence commensurate with the teaching assignment.

(Appendix E continued on next page)

Appendix E: ACME Guidelines for Interprofessional Clinical Supervision of Midwifery Students (cont'd).

The ACME accredited midwifery program must be able to demonstrate:

- Evidence the preceptor meets the academic institution's requirements for clinical faculty;
- Evidence the preceptor has passed the appropriate professional national certification exam;
- Evidence of current state licensure;
- Evidence of current professional certification;
- Evidence the preceptor has preparation for teaching and competence commensurate with the teaching assignment; and
- Evidence that 50% or greater of the clinical experiences of each student are supervised by CNMs/CMs.

For additional information see ACME's Policies and Procedures Manual and Criteria for Programmatic Pre/accreditation of Midwifery Education Programs with Instructions for Elaboration and Documentation on the ACME web page, <u>www.midwife.org/acme.</u>

Appendix F: Midwifery Program Objectives or Outcomes (Template for Criterion IV.D.)

Midwifery	Course								
program	Number								
Objectives									
Objective #1		x		x					
Objective #2	x								
Objective #3		x	x	x					
Objective #4				x	x				
Objective #5						x	x		
Objective #6								x	x
Objective #7							X	x

Appendix G: Courses with Core Competency Content Table (Template for Criterion IV.J.)

List each Hallmark, followed by each Component of Midwifery Care. Ensure that you have included all Hallmarks and Components of Midwifery Care. Refer to the ACNM document, *Core Competencies for Basic Midwifery Practice*.

Hallmark or Component of Midwifery Care Competency	Course number	Course objective, subobjective, class/seminar topic, or activity, or URL link to same, that satisfies the hallmark/competency

Acknowledgements Page

Every five years, ACME conducts a full review of its preaccreditation and accreditation criteria. Between May 2018 and May 2019, a group of dedicated, committed, and passionate volunteers who support and believe in ACME's mission to advance excellence in midwifery education, led this work. On May 14, 2019 the ACME Board of Commissioners unanimously voted to adopt the new *Criteria for Programmatic Accreditation of Midwifery Education Programs with Instructions for Elaboration and Documentation* and on August 5, 2019 to adopt the new *Criteria for Programmatic Preaccreditation of Midwifery Education Programs with Instructions for Elaboration S for Elaboration and Documentation and Documentation*. We would like to acknowledge these volunteers and thank them for their time and contributions to this final document.

ACME Board of Commissioners
