AMERICAN COLLEGE of NURSE-MIDWIVES

2024 Best Practices-Triple Aim Achievement

Primary cesarean birth rate < 23.9%, preterm birth rate < 11.4%, exclusive breastfeeding first 48 hours > 81%, reporting fiscal outcomes

"Triple Aim" Best Practice recognizes practices which meet the Institute for Healthcare Improvement "Triple Aim" of improving the patient experience, reducing cost of care, and improving the health of populations. This is demonstrated by high breastfeeding rates, low preterm birth and cesarean rates, and reporting fiscal variables. Of the 181 practices participating in the 2024 ACNM Benchmarking Project, 40 practices were designated Triple Aim Best Practices.
